The Premium is paid in Cash annually, or may, if desired, be paid semi-annually, or quarterly, by adding interest to the deferred payments. The CASH principle adopted by this Company, secures to the parties for whose protection insurance may be effected, the WHOLE of the benefits, without subjecting them to the heavy drawback of accumulated premium notes.
Persons may effect insurance upon their lives, or upon the lives of others. Married women can insure the lives of their husbands, for THEIR OWN BENEFIT and for the protection of their children.
Pamphlets explanatory of the principles of Life Insurance, and illustrative of its advantages, may be had, with form of application, and rates of premium, at the office of the Company, No. 35 Wall street, or from any of its Agents.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 19th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of
Wines, Liquors & Cigars,
Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say with confidence, that my Liquors are PURE.
I have marked my Goods very low, and have therefor adopted the
ONE PRICE SYSTEM,
and no deviation from the price first asked; giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.
Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete, and my stock of LIQUORS comprises over 1000 original Casks of the most approved brands of

VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

THE BLACK VEIL.

BY CHARLES DICKENS.

[CONCLUDED.]

The back part of Walworth, at its greatest distance from town, is a straggling, miserable place enough even in these days; but five and thirty years ago the greater portion of it was little better than a drear waste, inhabited by a few scattered people of a most questionable character, whose poverty prevented their living in any better neighborhood, or whose pursuits and mode of life rendered its solitude peculiarly desirable. Very many of the houses which have since sprung up on all sides, were not built until some years afterwards; and the great majority even of those which were sprinkled about at irregular intervals, were of the rudest and most miserable description.

The appearance of the place throughout which he walked, was not calculated to raise the spirits of the young surgeon; or to dispel any feeling of anxiety or depression which the singular kind of visit he was about to make, might have awakened. Striking off from the high road, his way lay across a marshy common, through irregular lanes, with here and there a ruinous and dismantled cottage fast falling to pieces with decay and neglect. A stunted tree, or pool of stagnant water, roused into a creeping sluggish action by the heavy rain of the preceding night, skirted the path occasionally; and now and then a miserable patch of garden-ground, with a few old boards knocked together for a summer-house, and old palings imperfectly mended with stakes pilfered from the neighboring hedges, bore testimony at once to the poverty of the inhabitants, and the little scruple they had entertained in appropriating the property of other people to their own use.

Occasionally, a filthy looking woman would make her appearance from the door of a dirty house, to empty the contents of some cooking utensil into the gutter in front, or to scream after a slipshod girl, who had contrived to stagger a few yards from the door, under the weight of a sallow infant almost as big as herself; but scarcely any thing was stirring around, and so much of the prospect as could be faintly traced through the cold damp mist, which hung heavily over it, presented a lonely and dreary appearance, perfectly in keeping with the objects which we have described.

After plodding wearily through the mud and mire, making many inquiries for the place to which he had been directed, and receiving as many unsatisfactory and contradictory replies in return, the young man at length arrived before the house which had been pointed out to him as the object of his destination. It was a small low building, one story above the ground, with a more desolate and unpromising exterior than any he had yet passed. An old yellow curtain was closely drawn across the window up stairs, and the parlor shutters were closed, but not fastened. The house was detached from any other, and as it stood at an angle of a narrow lane, there was no other habitation in sight.

When we say that the surgeon hesitated and walked a few steps beyond the house before he could prevail upon himself to lift the knocker, we say nothing that need raise a smile upon the face of the boldest reader. The Police of London were a very different body in that way to what they are now; the isolated position of the suburbs, when the rage for building and the progress of improvement had not begun to connect them with the main body of the city and its environs, render many of them (and this in particular) a place of resort for the worst and most depraved characters.

Even the streets in the gayest part of London, were imperfectly lighted at that time, and such places as these were left entirely to the mercy of the moon and stars.

The chances of detecting desperate characters, or of tracing them to their haunts, were thus rendered very few, and their offences naturally increased in boldness as the consciousness of comparative security became the more impressed upon them by daily experience. Added to these considerations, it must be remembered that the young man had spent some time in the public hospitals; and although neither Burke nor Bishop had then gained a horrible notoriety, still his own observation might have suggested to him how easily the atrocities to which the former had since given his name, might be committed. Be this as it may, whatever reflection made him hesitate, he did hesitate; but being a young man of a strong mind and great personal daring, it was only for an instant—he stepped briskly back, and knocked gently at the door.

A low whispering was audible immediately afterwards, as if some person at the end of the passage were conversing stealthily with another on the landing above. It was succeeded by the noise of heavy boots upon the main floor. The door chain was softly unfastened; the door opened and a tall, ill favored man, with black hair, and a face, as the surgeon often declared afterwards, pale and haggard, as the countenance of any dead man he ever saw, presented himself.

"Walk in, sir," he said, in a low voice.

The surgeon did so, and the man having secured the door again by the chain, led the way to a small back parlor at the extremity of the passage.

"Am I in time?"

"Too soon," replied the man.

The surgeon turned hastily around with a gesture of astonishment not unmixed with alarm, which he found it impossible to repress, though he would gladly have recalled it.

"If you'll step in here, sir," said the man, who had evidently noticed the action—"if you'll step in here, sir, you won't be detained five minutes, I assure you."

The surgeon at once walked into the room.—The man closed the door and left him alone.

It was a little cold room, with no other furniture than two deal chairs, and a table of the same material. A handful of fire unguarded by any fender, was burning in the grate, which brought out the damp if it served no more comfortable purpose; for the unwholesome moisture was stealing down the walls in long slug-like tracks. The window, which was broken and patched in many places, looked into a small enclosed piece of ground almost covered with water. Not a sound was to be heard, either within the house or without. The young surgeon sat down by the fireplace to await the result of the first professional visit.

He had not remained in this position many minutes when the noise of some approaching vehicle struck his ear. It stopped; the street door was opened; a low talking succeeded, accompanied with a shuffling noise of footsteps along the passage on the stairs, as if two or three men were engaged in carrying some heavy body to the room above. The creaking of the stairs afterwards announced that the new comers having completed their task, whatever it was, were leaving the house. The door was again closed, and the former silence was again restored.

Another five minutes elapsed, and the surgeon had just resolved to explore the house in search of some one to whom he might make his errand known, when the room door opened and his last night's visitor, dressed exactly in the same manner, with the veil lowered as before, motioned him to advance. The singular height of her form, coupled with the circumstance of her not speaking, caused the idea to pass across his brain for an instant that it might be a man disguised in woman's attire. The hysteric sobs which issued from beneath the veil, and the convulsive attitude of grief of the whole figure, however, at once exposed the absurdity of the suspicion, and he hastily followed her.

The woman led the way up stairs to the front room, and paused at the door to let him enter first It was scantily furnished with an old deal box, a few chairs, and a tent bedstead without hangings or cross rails, which was covered with a patch work counterpane. The dim light admitted through the curtain which he had noticed from the outside, rendered the objects in the room so indistinct, and communicated to all of them so uniform a hue, that he did not at first perceive the object on which his eye at once rested, when the woman rushed frantically past him, and threw herself upon her knees by the bedside.

Stretched upon the bed, closely enveloped in a linen wrapper, and covered with blankets, lay a human form, stiff and motionless. The head and face, which were those of a man, were uncovered, save by a bandage which passed over the head and under the chin. The eyes were closed.—The left arm lay heavily across the bed, and the woman held the passive hand.

The surgeon gently pushed the woman aside, and took the hand in his.

"My God!" he exclaimed, letting it fall involuntarily—"the man is dead!"

The woman started to her feet and beat her hands together—

"O! don't say so, sir," she exclaimed with a burst of passion, amounting almost to phrenzy—"O! don't say so, sir! I can't bear it, indeed I can't! Men have been brought to life before, when unskilled people have given them up for lost; and men have died who might have been restored, if proper means had been resorted to.—Don't let him lie here, sir, without any effort to save him. This very moment life may be passing away. Do try, sir—do, for God's sake!"

And while speaking, she hurriedly chafed, first the forehead and then the breast of the senseless form before her, and then wildly beat the cold hands, which, when she ceased to hold them, fell listlessly and heavily back on the coverlet.

'It is of no use my good woman,' said the surgeon soothingly, as he withdrew his hands from the man's breast. 'Stay—undo that curtain.'

'Why?' said the woman starting up.

'Undo that curtain,' repeated the surgeon in an agitated tone.

'I darkened the room on purpose,' said the woman, throwing herself before him as he rose to undraw it. 'O! sir, have pity on me! If it can be of no use, and he is really dead, do not—do not expose that corpse to other eyes than mine'

'This man died no natural, or easy death,' said the surgeon. 'I must see the body.'

And with a motion so sudden that the woman hardly knew that he had slipped from beside her, he tore open the curtain, admitting the full light of day, and returned to the bedside.

"There has been violence here," he said, pointing towards the body, and gazing intently on the face, from which the black veil was now for the first time removed. In the excitement of the minute before, the female had dashed off the bonnet and veil, and now stood with her eyes fixed upon him. Her features were those of a woman of about fifty, who had once been handsome. Sorrow and weeping had left traces upon them which not time itself would ever have produced without their aid; her face was deadly pale, and an unnatural fire in her eye, which showed too plainly that her bodily and mental powers had nearly sunk beneath an accumulation of misery.

"There has been violence here," said the surgeon, preserving his searching glance.

"There has!" replied the woman.

"This man has been murdered."

"That I call God to witness he has," said the woman passionately; "pitilessly, inhumanly murdered!"

"By whom?" said the surgeon, seizing the woman by the arm.

"Look at the butchers' mark, and then ask me," she replied.

The surgeon turned his face towards the bed, and bent over the body, which lay full in the light of the window. The throat was swollen, and a blue, livid mark encircled it. The truth flashed suddenly upon him.

"This is one of the men who were hung this morning," he exclaimed, turning away with a shudder.

"It is," replied the woman, with a cold, unmeaning stare.

"Who was he?" inquired the surgeon.

"*My Son,*" rejoined the woman, and fell senseless at his feet.

It was true. A companion equally guilty with himself had been acquitted for want of evidence; and this man had been left for death and executed. To recount the circumstances of the case at this distant period must be unnecessary, and might give pain to some persons still alive. The history was an every day one. The mother was a widow, without friends or money, and had denied herself necessaries to bestow them on her orphan boy. The boy, unmindful of her prayers, and forgetful of the sufferings she had endured for him—incessant anxiety of mind and voluntary starvation of body—had plunged into a career of dissipation and crime. And this was the result; his own death by the hang-man's hands, and his mother's shame, and incurable insanity.

For many years after this occurrence, and when profitable and arduous avocations would have led many men to forget that such a miserable being existed, the young surgeon was a daily visitor at the side of the harmless madwoman; not only soothing her by his presence and kindness, but alleviating the rigor of her condition by pecuniary donations for her comfort and support, bestowed with no sparing hand. In the transient gleam of recollection and conciousness which preceded her death, a prayer for his welfare and protection, as fervent as mortal ever breathed, rose from the lips of this poor, friendless creature. That prayer flew to Heaven and was heard.

The blessings he was instrumental in conferring have been repaid to him a thousand fold; but amid the honors of rank and station which have since been heaped upon him, and which he has so well earned, he can have no reminiscence more gratifying to his feelings than that connected with —The Black Veil.

MONDAY MORNING, JANUARY 5, 1852.

Rufus King, Wm. H. Watson & John. S. Fillmore,
PROPRIETORS.
UNDER THE NAME AND FIRM OF
RUFUS KING & CO.

OFFICIAL PAPER OF THE CITY.

WHIG NOMINATION.

FOR SENATOR—13th DISTRICT,

EDMUND B. WEST.

ELECTION—WEDNESDAY, JANUARY 7.

WAUKESHA SENATORIAL ELECTION.

A special election is to be held in Waukesha on Wednesday next, January 7th, to fill the vacancy in the Senate created by the resignation of GEORGE HYER. The Democrats have nominated Mr. W. H. THOMAS, as their candidate, and the Whigs DR. E. B. WEST. The Doctor is a good Whig, an estimable citizen, and a strong candidate. He would represent Waukesha County ably and faithfully in the Senate, and the People of that County will, we trust, give him a commission to do so. The election takes place *day after to-morrow.*

OVER IMPORTATION—PROTECTIVE TARIFF WANTED.

The inundation of this country by foreign goods is a subject of wide magnitude, and most radical interest to the American people. A remedy for this evil would be precious as rubies to him who values the institutions of his country, and glories in its indigenous greatness. It is true, that each individual should import no more than he may think he can sell to advantage; but, after all, it will be found that the importations, on most occasions, will be far beyond our wants, which, together with false calculations and unfortunate enterprises, will create a balance against us. The remedy for all this is one most grateful to the American ear, and neatest to the American heart. It is the *encouragement of our own manufactures.*

It is a notorious fact, that articles to a serious amount are manufactured abroad for the express purpose of being sold at auction in the United States. By this, our manufacturer is undersold, and, what is as mortifying, he is a sufferer from the fraud of strangers. The *complete* remedy against our being surcharged with foreign goods, and the means of introducing (*and fostering*) manufactures, is to forbid entirely the importation of articles which can be on any tolerable terms manufactured by ourselves. All governments should remember a maxim in finance, more precious than diamonds, that "when the cottage is wealthy, the treasury is full."

The encouragement of our domestic resources will make us a united people. This nation will become one great family, giving and taking from each other. Still another benefit, and not among the least of those which arise from the encouragement of domestic manufactures, would be the exclusion of foreign *agents*, whether Scotch, English, French, or German. This species of cormorant character holds in its hand the capital of some man abroad who never intends to step his foot upon our shores, and with this capital extracts from the country the profits of its traffic, on a perfect commercia equality with the American citizen. This is continued until he accumulates a given heap of riches for himself and his patron, and then, after oppressing all around him to wind up his affairs, he modestly returns to his foreign home, and retiring in opulence, contributes to the wealth and resources of a nation which might next declare war against us.

The farmer and landholder may also be reminded, that Manufacture is the handmaid of Agriculture. The increased value of the soil over our vast interior, would soon be felt (*under the American system*) in the rise of villages and extensive establishments, which this active and thrifty internal system never fails to produce.

Our country seems to be in itself almost an epitome of a world, as to the various objects of commerce and intercourse it may afford. Strike out of existence every other country, and we should find within ourselves an ample field for agriculture, science, mechanics, commerce, and the arts.

The subject is attracting daily much attention from the people and the press, and the more they reflect upon it and discuss it, the more will the true independent American system commend itself to favor, except where an affectation of political consistency may prevent. We hope to hear from some of our cotemporaries on the subject, one of which in particular, the *Commercial* of this city, though belonging to the *free trade* party, has yet come so far around to our own view of the question, as to declare itself in favor of a Tariff discriminating in favor of American Industry.

STATE AGRICULTURAL SOCIETY.—The Annual Meeting of the State Agricultural Society is to be held at Madison on Wednesday evening, January 21st. The especial business of the meeting is the selection of Officers for the current year and the designation of the site of the next State Fair. It is understood that the principal competitors for this honor are Watertown, Waukesha and Milwaukee, and the choice will depend very much upon the arguments and inducements which each may offer in support of its claim. We hope, therefore, that our City will be fully represented at the Annual Meeting and that our Delegation will be empowered to make such offers to the State Society as will ensure the location of the next Annual Fair at this place.

THE NEXT LEGISLATURE.

The Legislature of this State assembles at Madison on Wednesday, the 14th instant. The Session bids fair to be one of the most important and interesting that has yet been held in Wisconsin, and in that belief we have made arrangements to keep our readers promptly and fully advised as to the proceedings. In addition to Daily Telegraphic reports of proceedings, in both Senate and Assembly, we shall have a regular and reliable Daily Correspondence from the Capital, and shall publish in full, or give copious extracts from, all important public documents, reports, &c., communicated during the Session. To members of the Legislature, therefore, and to all persons desirous of obtaining a full and accurate account of the Legislative doings, the *Sentinel* will be especially useful, and present, we trust, substantial and increased claims to the public favor and patronage. We will send the Daily, during the session, to members of the Legislature, or others, at *One Dollar* per copy: and shall feel under obligations to Postmasters and other friends, throughout the State, if they will take the trouble to make known these terms in their respective neighborhoods and forward us such subscriptions as may offer.

Pontiac & Ottawa R. R.

We understand that active measures are on foot to get the stock of this Railroad Co. taken up and the work on it put in progress under the terms of its charter. The road passes through Oakland, Genesee, Shiawassee, Clinton, Ingham, Ionia and Kent Counties, substantially upon the line of the great northern Railroad as projected by the early Legislation of this State, in connection with those two other great routes, now in successful operation, the Central and Southern.

The region of country at the time when this line of road was first spoken of was a wilderness to a great extent; it is now thickly populated and is not excelled by any similar tract of country in the State—either for fertility or agricultural enterprise. It touches the flourishing villages of Fentonville Byron, De Witt and Lansing, the Capitol of the State, and finds its termination at Grand Haven, nearly opposite, and sixty miles distant from Milwaukee. The stock of this, when built, will be second to none in the State in point of productiveness.—*Det. Adv.*

We have wondered for some time that the above project had not been revived long ere this. It is certain that a vast amount of the western travel will pass Detroit to the south, this year by the Southern Michigan railroad, and on the completion of the lines around to Toledo, no one will go to Detroit unless his business leads him that way.—But complete the above railroad directly across the State of Michigan, and the Canada road, and the travel from this state turns that way at once.—With such connections, the time from Milwaukee to New York city need not be over *two days* at the farthest, except in case of severe storms on this lake. This is a shorter time than we can expect to get by any other possible route. We hope that earnest and prompt men will take hold of the project, and put it through at once.

FREE ACTION.—One of Louis Napoleon's late proclamations to the army reads as follows:

To-day, at this solemn moment, I wish the voice of the army to be heard.

Vote, then, freely as citizens; but, as soldiers, do not forget that *passive obedience* to the orders of the army, from the general down to the soldier.

We like that! It is so plain and frank! It tells the patriotic French soldiers who have smoked, and twirled their mustaches, and drank, and shouted, all in the name of republicanism—to vote freely, and with unbiassed minds, Yes or No; but if they dare to vote No—off go their heads. A rare old Republic that!

MR. CLAY'S HEALTH.—A correspondent of the New York *Herald* writes from Philadelphia, dated Dec. 20th, as follows;

Dr. Samuel Jackson, of this city, went to Washington on Saturday last, on a professional visit to Mr. Clay, and remained with him until Tuesday, of this week. He found Mr. Clay very much prostrated. On examining his lungs, the right lung was found to be affected by deep seated bronchitis. The left lung was in a perfectly healthy condition. I will here remark that the popular notion that bronchitis is an affection of the throat, is an error. The disease is always located in the lungs.

Mr. Clay attributes his debility entirely to the incessant excitement, and anxiety, and fatigue, which he underwent during the session of 1849 and 50, in supporting his compromise measures. Immediately after the close of the that session, he sank into a collapse, from which he has never recovered. For the last six months he has been constantly emaciating and losing strength, notwithstanding his appetite and digestion have been good. This is regarded as the most favorable symptom of his case.

THE PROPOSITION IN FRANCE.—The following is the form of government which Louis Napoleon has presented to the voters of France:

First. A responsible Chief named for ten years.

Second. The Ministers dependent on the Executive alone.

Third. A Council of State, formed of the most distinguished men, preparing the laws and maintaining the discussion before the Legislative Corps.

Fourth. The Legislative Corps, discussing and voting the laws named by Universal Suffrage.

Fifth. A second Assembly formed of all the illustrious persons of the nation.

VESSELS BUILT IN THE UNITED STATES.—From the tables accompanying the Secretary of the Treasury's Report, we learn that in 1851 there were built in the United States 211 ships, 65 brigs, 532 schooners, 326 sloops and canal-boats, with a total of 298,202 tonnage. Pennsylvania owns tonnage amounting to 284,373 being an increase of 25,000 over the previous year. New York has 1,011,013, being an increase of 96,000.

CAPT. HOWE.—The Cleveland *Plaindealer* of the 23rd ult., publishes a communication from Columbus, giving a much more favorable account of CAPT. HOWE's bodily and mental health than the one first published, and stating that he went to the Asylum voluntarily, in order to get the advice of the eminent physician who has charge of it.

FIRE IN QUEBEC.—A disastrous fire occurred at Quebec, on the 26th ult. in the eastern end of the Artillery and Ordnance Barracks. The soldiers barely escaped with their lives. Upwards of $40,000 worth of Military stores were consumed, and the building, itself valued at $60,000, was entirely destroyed.

☞ The first time the Duke of Wellington visited the town of Dover, after the completion of the submarine telegraph, he was saluted by the discharge of a thirty-two pound gun, fired by a spark communicated from the magnetic battery at Calais.

THE FIRE AT CANANDAIGUA.—The late fire at this place destroyed Blossom's Hotel, the eating house, the depot of the Canandaigua and Jefferson Railroad, the woodsheds, and all the buildings connected with the business of the railroad.

PARTNERSHIP.—Mr. GEO. W. BLISS, of the Mineral Pt. *Tribune*, has associated Mr. J. B. CHANEY with him in the proprietorship of that paper, and it will be hereafter published under the firm of BLISS & CHANEY.

NEW YORK AND ERIE RAIL ROAD.—The Directors of the N. Y. and Erie R. R. Company have declared a dividend of *four* per cent, out of the net earnings for the six months ending on the 31st ultimo.

MARCY A LITTLE AHEAD.—Ex-GOV. MARCY has thus far got a little the start of his contemporaries in the Presidential race. He presided at the great Kossuth demonstration in Albany.

☞ It is said that the *Buckeye State* is to be third steamer on the Southern Michigan route, in connection with those which Capt. Edwards is building at Buffalo.

GOLD.—The steamship *Georgia*, arrived at New York on the 21st ult, brought over $3,000,000 in gold, being the largest amount yet brought by any one steamer.

ARREST.—KNICKERBOCKER, who was under sentence of death for murder in Buffalo, and escaped, was recaptured on the 23d, near Lockport.

JUDICIAL ELECTION.—S. M. GREEN, the loco candidate, is probable elected Judge in the 7th Michigan District.

City Matters.

MASS MEETING.

A large meeting of the friends of Temperance was held at the Methodist Church, Spring St., on Friday Evening, Jan. 2d, pursuant to previous notice.

The meeting was called to order by Dr. W. W. Lake, and opened with prayer by the Rev. W. H. Spencer.

James H. Paine, Esq. was elected President, Mr. Wm. H. Byron, Rev. W. H. Spencer, and Geo. E. H. Day, Esq., Vice Presidents, and Herbert Reed, Secretary.

On motion, a committee of nine was appointed by the Chair to draw up resolutions expressive of the sense of the meeting. Messrs. J. B. Vliet, G. J. Fowler, Edwin Palmer, N. G. Storrs, Wm. Lee, Geo. F. Austin, Mr. Waite, S. C. West, and Rev. R. P. Lawton, constituted the committee.

On motion, the Chair appointed Rev. W. H. Spencer, W. H. Byron, and Rev. S. C. Thomas, to nominate a committee to make arrangements for future meetings. Herbert Reed, Wms. Lee, Wm. Edwards, Eliphalet Cramer, and Edwin Palmer, were selected as such committee.

The committee on resolutions, after a short absence, (during which the meeting was addressed by the Rev. W. H. Spencer, and Gen. Paine.) reported the following resolutions, which were unanimously adopted, after being discussed by the Rev. J. M. Leihy, J. B. Vliet, Rev. S. C. Thomas, A. Sweet, L. Kennedy, J. H. Paine, Rev. W. H. Spencer, David Johnston and Geo. E. H. Day:

Resolved, That while the sale of intoxicating drinks for a beverage is sanctioned by law, it is vain to expect a reform of the evils of intemperance; pauperism and crimes will multiply—thousands will continue to fall as thousands have fallen, before the allurements of the intoxicating cup, involving the peace, morals and happiness of families and the general welfare of society.

Resolved, That the traffic in intoxicating drinks for a beverage is directly injurious to the vital interests of society, as tending to produce temporary insanity, carelessness in business, recklessness in morals, and a general disregard of the social duties of life; and being thus injurious, society has the same right to defend itself against the mischief of the traffic, as it has to guard against the introduction of the small-pox or the plague, or the commission of any crime.

Resolved, That the wide spreading and fearfully increasing evils of this traffic in our young State, demand from the government the exercise of this right of self defense in the enactment of wise laws for its total prohibition.

Resolved, That until a prohibitory law can be passed, the present law should be strictly enforced; and we have an abiding confidence that juries, impartially empannelled, will enforce this law, in every case where the testimony will warrant a verdict of guilty

Resolved, That this meeting has heard with pleasure the proceedings of a meeting of License Holders, held at the Milwaukee House, on the evening of the 30th of December, and recognize in the resolutions passed at that meeting, a commendable spirit of obedience to the laws of our State.

On motion the Chair appointed the Rev. S. C. Thomas, David Johnston and Herbert Reed, a committee to draft a plan, for the formation of a Temperance League.

Moved, That the proceedings be published in the city papers.

On motion the meeting adjourned to convene again by the direction of the committee of arrangements. J. H. PAYNE, Pres't.

HERBERT REED, Sec'y.

HAY & WOOD.—The attention of vendors of hay and wood is invited to the ordinance in our paper to-day, regulating the place of sale of those articles in the first Ward.

OPENING OF THE PANAMA R. R.—Mr. Stephens, President of the Rail Road Co., at first strongly objected to opening the road to travel until the connection to Bayou Salsada was made, as he feared the influx of passengers would interfere with the work. He finally assented to the temporary use of the road, and for the first time, on the 8th of December, passengers and freight trains were run over the road. All the passengers of the Georgia (say 700,) with Adams & Co's Express went over, and the home passengers, numbering 850 with the mails and specie came down on the 9th.

Mr. Stevens was confident that the road would be in running order to the Bayou in two months, which will save 40 miles of dangerous river navigation and one day in time The company had five cars ready for use. Large Hotels, are being built to accommodate the travel.

The road, as far as Gatune, is in very good running order. The first down train brought 300 passengers and the mails and specie, without accident or detention, although the late rains have been the heaviest for many years.

MARINE.—The passengers by the steamer Empire, Capt. Walker, state that they left Cleveland on Sunday evening, the 14th, with fine weather. About 2 o'clock in the morning the gale commenced, accompanied by a snow storm, and continued till Thursday noon. On Monday night the boat had labored so heavily as to get much water in her, and finally listed over so that she could not be trimmed up, when Capt. Walker consented to throw overboard 500 or 600 live hogs, together with the rest of the deck load. She then righted, and succeeded in getting into five fathoms water, on the Canada shore. There she anchored till Thursday noon, when she weighed anchor and headed for this port; but, owing to the heavy sea and thick weather, put into Gravelly Bay, where she now lies within about five rods of the pier, the ice being too thick to admit of her getting nearer. The water has been pumped out of her.—*Buff Com.*

☞ The Kossuth Resolutions in the Senate have been the occasion of some fine speeches.—Mr. Sumner, the new Senator from Massachusetts, broke the ice with a speech upon the question, and it is really an elegant and eloquent production. It was received with marked effect, and it is said to been the best *maiden* speech ever delivered in Congress But the great speech upon the occasion was made by Senator Seward, which, in our opinion, dwarfs Mr. Sumner's into a schoolboy's effort beside it. It is more eloquent, equally neat and elegant, and sustained by a more vigorous logic and argumentative power than is often the case with speeches of this character.—*Beloit Journal.*

GOOD NEWS FROM MR. DARBY.—A telegraphic dispatch from Washington, from a reliable source, communicates the following information in regard to an early and perfect restoration of the health of Mr. Darby, M. C. from this District. It was received by the Morse Eastern Line yesterday:

Washington, Dec. 26.

"Mr. Darby has paralysis in both arms and both legs, but is decidedly better. He can now move one arm, and his physicians promise an early and perfect recovery."—*St. Louis Republican* 27 Dec.

☞ The Dansville *Herald* has a "devil," who thinks this is a *great* world. He says that at the office they charge him with all the pie they *do* find, while at the house they charge him with all they *don't* find. He seems to doubt the "propriety" of the proceedings.

☞ The Bank of England having caused one of Hobb's famous locks to be applied to a safe, no one in the establishment was able to open it, and Mr. Hobbs had to be sent for before the business of the department could begin.

CONGRESS.

Washington, Dec. 23.

SENATE.—Mr. Underwood offered a resolution for a re-investigation of all the expenditures by the Executive Departments, when there were was reason to suppose they had been fraudulently or improperly made.

The special order, the Compromise resolutions, was then taken up.

Mr. Clemens having the floor, gave way to Mr. Cass, who spoke at some length in its support.—He said Mr. Rhett's denunciations of the Union furnished the motive for passing the resolution.—He considered the Compromise a wise and patriotic settlement, and was loud in his denunciation of the Secessionists, and conclusively proved that the passage of the resolution would be of great benefit to the country.

Mr. Clemens followed in favor of the resolution and ably answered Mr. Rhett and other Secessionists. He exploded their doctrines as utterly at variance with common sense.

Mr. Douglass next defended his course on the Compromise measures, and said he had voted for all of them except the Fugitive Slave Bill, private business compelling his absence. He narrated the triumphant proceedings at Chicago upon the question, and defended his adherence to the Missouri line until it became hopeless. He doubted the wisdom of introducing the resolution, and said that the true policy was to remain silent until the Compromise was attacked, and then vindicate it by their votes.

Mr. Downs obtained the floor, and on his motion, the subject was postponed to the 1st Monday in January. Executive Session and adj.

HOUSE.—The Speaker presented a communication from the President relative to the case of Mr. Thrasher.

Also a message stating that no information relative to a treaty between England, France and Spain had been received.

Mr. Brooks moved to refer to Committee on Foreign Affairs, with instructions to inquire into the laws of domicil in Cuba, and see whether they were not a proper matter for treaty. He said he would at a proper time, show how harshly they operated on American citizens.

The motion was carried and the House adjourned to Friday.

KOSSUTH IN BALTIMORE.

Baltimore, Dec. 27.

Kossuth reached this city from Philadelphia at 3 o'clock yesterday, accompanied by the Baltimore committee and others of this city. He was met at the depot by a large concourse of citizens, and a long line of military, and was escorted with much enthusiasm to his quarters at the Eutaw House. He addressed the public at the Maryland Institute. Tickets issued to 6000 persons. There was also an equal number outside. He spoke nearly 1½ hours.

From Buenos Ayrs letters received to Nov. 3d. Espenosa was at Monte Video preparing to invade Buenos Ayres. His army, 25,000, will be ready in about 6 weeks. Rosas is making exertions to meet him.

Every native capable of bearing arms is impressed in the army, and in consequence the lower classes are opposed to him. The opinion of writers is, that Rosas will be overthrown.—Meantime, leather and hides cannot be brought to market, and will, as well as flour, rule high.

Boston, Dec. 29.

The Canada reached here on Sunday morning. Her mails could not be expressed, owing to repairs of Worcester and Norwich railroad.

Total received by sale of tickets at Plymouth Church, Brooklyn, on Kossuth's visit was $5,425, inclusive of $1,000 contribution by Bowen & McNamee.

On Saturday evening 13 new houses, unoccupied, in Roxbury, (Appleton) was set on fire, and 4 destroyed, others damaged; property of heirs of Samuel Polk. Incendiary escaped.

Washington, Dec. 29.

Kossuth will arrive to-morrow. The Intelligencer says he will be welcomed by all, and with the same formalities by each House of Congress, and hospitably entertained by the Executive.

Boston, Dec. 19.

About 5 o'clock this P. M., Mr. Ellis, a broker, at 16 State street, was robbed of $4,000 in bills and gold.

The thief snatched it from the counter, and fled while Mr. Ellis was preparing to close the office.

The thief has been arrested, but the money has not yet been found.

Louisville, Dec. 19.

Telegraphic despatches in the St. Louis papers of the 11th from Memphis, Tenn., says, that the steamer *Clermont* sunk in White river, and 23 lives were lost.

On Thursday night the Tobacco factory of Mr. Cline & Browder, at Clarksville, Penn., with 900 hhds. of tobacco was destroyed by fire. Also the pork house, outbuildings, &c., of Mr. Chamberlin, containing a large number of hogs, lard, &c.

Total loss nearly $15,000. Insured for 4,000.

The steamer Arctic sailed to-day for Liverpool with 41 passengers and $371,000 in specie.

New York, Dec. 20.

The steamer Arctic was detained a short time to-day to take out Geo. H. Miles, special bearer of despatches from Washington to Spain.

Some of the contributions so liberally reported as for the Kossuth Fund, turned out to be a forgery against those whose names have been used The following $1,000, is of this character:

Seabury Brewster, $509; Sherman Brownell, $250; Isaac R. Goward, $250.

Checks were drawn for these amounts, payable to M. Kossuth, and deposited in the Merchant's Bank for collection where Kossuth keeps his funds.

On being presented at the Banks whose names were used, there were no funds to meet them, and they were pronounced fraudulent. The check of Brewster was pronounced a forgery, and that of Messrs. Goward and Brownell were not paid, as these persons had no account at the Banks on which they were drawn. It is believed that there is no such person in the city as Seabury Brewster.

ARRIVAL OF THE PROMETHEUS.

New York, Dec. 29.

The *Prometheus* reached her dock a little before 2 o'clock, in 8 from San Juan, with 285 passengers and $63,000 in gold dust on freight, and $500,000 in the hands of passengers.

The *Prometheus* arrived at San Juan on the 16th. She brings news from San Francisco to the 1st of Dec., brought down by the steamer *Independence.* Left at San Juan the *Brother Jonathan* for Chagres, next day sailed in company with the *Falcon* for Havana.

Breadstuffs at San Francisco have had considerable sale, and the market is short still of prime flour. Provisions remain about the same as last reported. Hams are rather lower but sell as readily.

Domestic and other dry goods sell at low prices, but the stock is excessive. Lumber improving.—Agricultural implements in good demand. The California Express is agitating the project of the construction of a railroad between Maysville and Sacramento, a distance of 40 miles. A preliminary survey has been made. Much dissatisfaction is still said to be manifested against the Indians in the Mariposa regions, on account of their non-compliance with the treaty. Some trouble has also taken place with the Indians from San Fernando, which was quieted by the whites presenting them with cattle, &c.

A letter from Los Angelos of Nov. 23d, states that the Indians from the Colorado, Antonio, &c., were about to make a simultaneous attack upon San Diego, Los Angelos, Santa Barbara, &c. Great apprehensions had been felt by the citizens. Guards had been stationed, and active preparations were being made to give the Indians a warm reception.

The U. S. Cutter Lawrence on her passage from Monterey to San Francisco, was driven ashore in a gale near Point Lopez. Her hull will be a total loss.

The California papers are congratulating their readers upon the establishment of a weekly communication with the Atlantic States, and are agitating the question of weekly mails.

The U. S. sloop-of-war Vandalia, Capt. W. H. Gardner, arrived at Honalulu on the 25th.

The Press from the south mining regions contain favorable accounts of the mining operations of the valleys in Mariposa. It is of great extent, and is expected to prove the key to greater discoveries. Real estate had improved 100 per cent in the neighborhood, in a few months, and rents are actually higher than in San Francisco.

Another slight shock of an earthquake had been experienced in San Francisco.

Oregon dates to Nov. 27 are at hand.

Coal in large quantities has been discovered at Port Oxford. The Indians continue to give much trouble.

BED OF WATER LIME.—We understand that a number of cisterns have been built in Koskonong the past fall, from lime obtained from the farm of Mr. Daniel Finch in that town. The bed is very extensive, and the lime has been proved to be a superior article in every respect. Mr. F. is making preparations to manufacture it the coming spring on a scale which shall be equal to the wants of the state.

This is a discovery important not only to Mr. F., but to the people of this portion of our state, saving us the necessity, as it will, of longer sending our money abroad for this article.—*Watertown Chronicle.*

ACCIDENT.—We are informed that a sad accident occurred near Iron Ridge, in Dodge Co. on Wednesday of last week. An Irishman by the name of John Collins, while feeding a thrashing machine, became entangled in the machinery, and in a moment his left arm was reduced to a mangled mass, so as to require immediate amputation above the elbow. The operation was performed by Dr. Reeve, of Mayville, with the assistance of Dr. Winters, of Loricon; the patient being under the influence of chloroform. And we hear he is doing well.—*Fond du Lac Journal.*

500 Dollars Reward!

THE repeated attempts which have lately been made to fire buildings and vessels in this City, manifest the existence of an organized gang of wretches, whose detection and conviction requires the strenuous efforts of all well disposed persons, as well as of the public authorities of the City, which it is hoped will not be wanting. As a further stimulant to such exertion, I do hereby offer a reward of *Five Hundred Dollars* for the detection and conviction of any person who has, or shall, wilfully set fire to any building or vessel in this City.

WISTAR'S
BALSAM OF WILD CHERRY
THE BEST REMEDY EVER KNOWN

To MAN, for Coughs, Asthma, Colds, Croup, Bronchit
Influenza, Bleeding of the Lungs, Difficulty of Breat
ing, Liver Affections, Pain or Weakness of the Breast
Side, First Stages of Consumption, &c.

In short, this Balsam is peculiarly adapted to every disea
of the Lungs and Liver, which is produced in our ex
varying climate.

WILD CHERRY has long been known to possess i
portant medicinal properties. This fact is famil
to every matron in our land, and physicians often preser
it in different forms for a variety of complaints. Tar, a
has been equally noted for its virtues; and some physicia
whose names are familiar to the whole country, have g
so far as to declare that even CONSUMPTION could
cured by that alone. In other hands, again, it was nec
valueless—owing, no doubt, to their ignorance in prepar
and administering it—a difficulty now entirely obviated
patient experiment and long experience.
The extraordinary medicinal powers of these two s
stances are now, for the first time, combined and embod
in DR WISTAR'S BALSAM OF WILD CHERRY.
a nice chemical process, everything deleterious or usel
is rejected, so that what remains is the most extraordin
and truly efficacious remedy for all kinds of pulmon
and liver diseases ever known to man. To convince all
believers that our theory is really true, we refer to a f
cases of cures performed by this wonderful medicine:

PLEASANT RIDGE, Ham'n Co., O.,
September 27, 1850.

J. D. Park—Dear Sir:—I take the liberty of advising
of the benefit I have derived from the use of Dr. Wistr
Balsam of Wild Cherry. I was prostrated by that terri
scourge, Consumption, in May last. The attack was tr
horrifying to me, for five of our family, (brothers and
ters,) had died of Consumption. I was afflicted with nea
all the worst features of the disease. I had a distress
cough, and expectorated a great deal of blood, hectic fev
severe pains in the side and chest, cold chills, alternati
with flushes of heat and copious night sweats.
I was under the care of a skillful physician, from t
time I was taken sick until about six weeks since, being th
about helpless, and my friends considered my case hopele
or at least beyond our Physician's skill, and advised the
of Wistar's Balsam of Wild Cherry. Without my know
edge, my father procured it, and commenced administe
ing it to me, and from the first day I commenced taking
my health improved, and in two week from the time I co
menced using it, I was able to be out and oversee my bu
ness, and labor, which I still continue to do. I have tak
four bottles of the medicine, and now consider myself pe
fectly well. JEREMIAH SCRIGG.

Another astonishing Cure!

E. Kalb, a highly respectable merchant of Rushville, Fairfield county, Ohio, sent us the following voluntary tribute to

"DR. WISTAR'S BALSAM OF WILD CHERRY."

Rushville, Fairfield Co, O, April 6, 1851.

MR. J. D. PARK—Dear Sir:—I wish to state to you that my daughter, Amanda, aged sixteen years, had, about a year since, a very severe attack of measles, which reduced her very much, and left her with a racking cough. I employed all of the physicians, within our reach for the purpose of removing her cough, but without success. She appeared to be sinking into a decline, with every symptom of consumption.

I then tried Dr. "Rogers' Liverwort and Tar." But this aggravated her cough, and gave her symptoms of a still more malignant character. I was now most seriously alarmed, and it was with trembling fear that I from day to day, saw the progress of that insatiable disease, consumption. I really despaired of my daughter's recovery. But I providentially saw the certificate of Jonathan Coulson, whose daughter, "Sarah Jane," was cured of consumption by "Wistar's Balsam of Wild Cherry;" this created a faint hope that it might help my daughter, and I immediately commenced using it, and it almost instantly gave relief; her health was improved from the first bottle, and by the use of two bottles of "Wistar's Balsam of Wild Cherry," she was restored to perfect health, and she is not at all predisposed to a cough.

I will say to all that are afflicted with any disease tending to consumption, *do not despair*, for Dr. Wistar's Balsam of Wild Cherry will cure you, if you will but try it.
E. KALB.

The genuine Wistar's Balsam of Wild Cherry has a fac simile of the signature of Henry Wistar, M. D. Philadelphia, and "Sanford & Park" on a finely executed steel engraved wrapper. No other can be genuine.

ARRANGEMENTS FOR 1851.

AS the season for emigration approaches, we beg to acquaint our friends and the public with our Arrangements for the year 1851, and would inform them, that with an increase of business—for which we are grateful—we are placed in possession of greater facilities for conducting the Emigration and Foreign Exchange Business than any other House in the World, and for which—in a great measure—we have to thank a discerning public for their continued patronage.

Since the commencement of last year a large number of magnificent ships have been added to the various popular lines for which we are the Agents, and several others are now in course of construction, all of which will be fitted up for passengers in the most superior manner, and commanded by men of long experience.

By the following List of Packets, and their dates of sailing—being six regular packets a month to and from Liverpool—four, to and from London—and two, to and from Glasgow—persons sending for their friends, or those proceeding to the "Old Country," will perceive it much to their advantage to make arrangements at our office; and as heretofore, our business in *Liverpool* will be under the personal superintendence of our Mr. W. TAPSCOTT—whose well known care and attention to passengers embarking by our line has won for him his present high reputation among the emigrating public.

GRIST MILLS.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the Foundry business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
Double Oven Cooking Stove,
(*Which received the First Premium at the State Fair, lately held at Janesville,*)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be heated at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood. It an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire brick—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest ornament ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

Troy Fire Insurance Company
TROY, WALWORTH COUNTY, WIS
CAPITAL $100,000.

The Directors feel grateful to the public for having thus early manifested their approval of and confidence in this Company. After having been in operation ten months, we are able to report as follows:

Whole number of Policies issued, ...	960
Whole amount of Property insured, ...	$62,651 00
Whole amount of Cash premium, ...	5214 37
Whole amount of losses allowed and paid,	371 27
Balance of Cash Premium on hand, ...	4843 10

IT is gratifying to the Directors to state to the members of this Company, that the business has more than met their expectations, and is rapidly increasing. This unparalleled success in the commencement, and increase of business, show that our plan and management meets with the approval of the public.

The Charter and Bye-Laws are free from objections, and provide that the risks shall be divided into two distinct departments, and the premium notes in one shall not be liable for losses in the other. The only risks taken in the Farmer's Department are on farm property, detached dwellings, country churches, school houses, tailors' shoemakers', and saddlers' shops. No hazardous risks will be taken in either department, nor more than $2000 in one risk or in a circle of eight rods.

The company possess both the advantages of the Stock and Mutual plan. Any person insuring may pay once and one-half the regular cash premium in full, without a premium note. Stoves may be added or changed, out-buildings erected, if fifty feet from dwelling, and such additions and repairs made as do not increase the hazard, without notifying the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance may take effect on the day the application is made. The Company pays, in case fire, the full amount of damage not exceeding the amount insured, and all matters of difference may be settled by arbitration in the county where the loss occurs.

The rates charged by this company, though low, are based upon the actual results of insuring for the past twenty years, and are found to be sufficient, with prudent management, to pay all losses and expenses without ever resorting to the premium notes; thus the rates on exposed dwellings and farm property, are a premium note of one per cent, and a cash premium of fifty cents on each $100 for five years.

In publishing our safe, cheap, and popular plan of insurance, we deem it a duty to ourselves and the public to state a few existing facts with the Washington and Montgomery:—

The Washington County Mutual commenced in 1836, by collecting thirty cents on $100; in 1848 they first discovered that this was insufficient to pay losses, and raised to 23 cents, and now are collecting 50 cents on each $100; the result of which is, by their report, Jan. 1, 1850, $5000 in the treasury, and 63 million at risk, on which they will probably lose two hundred thousand, making their actual debt 191 thousand.

The Montgomery County Mutual is another example of bad management. They have been in operation a little longer than the Washington, and their report shows what the Washington is fast coming to. They reported to the Comptroller, Jan. 1, 1850, that their losses and cash expenses had exceeded their cash receipts twenty-one thousand dollars, and fifteen thousand dollars claims unsettled, making debts and claims forty-four thousand dollars, and some thirty millions at risk, on which they will probably lose ninety thousand dollars more, making their actual debt one hundred and thirty-four thousand dollars.

The cash premiums now collected by these two companies on what they insure in future will only pay losses on the same, consequently those insuring with them now not only pay for their insurance, but assume a portion of these enormous debts, which must be raised by tax. These companies are unpopular in New York, and are compelled to wander in the Valley of the Mississippi where they are not so well known for business. Arch Bishop and Lester Wilcox may publish, as heretofore, their firm belief that no tax will ever be necessary, but the figures are the things to judge from.

Since the above reports, the Montgomery have levied a tax on their premium notes.

Now we would ask the public candidly, which of these three companies it is to their interest to insure in; the Washington, and assume a debt of $191,000, the Montgomery, and assume a debt of $134,000, or of the Troy, with an increasing cash fund sufficient to pay all losses and expenses without ever resorting to a tax?

THE BEST FEMALE MEDICINE KNOWN!

The peculiar maladies to which females are subject commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength there is a loss of nervous power, and this very naturally impairs the energy of the mind and disturbs the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the mournful truth. Now, to obtain relief, it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as "Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla."

Ladies of pale complexion and consumptive habits and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and to vigor.

☞ Dr. Guysott's Improved Extract of Yellow dock and Sarsaparilla is a sure remedy for Hereditary taint.

Females, Read the Following.

NEWARK, N. J., Jan 25

Mr. Bennett—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case.

A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other diseases peculiar to her sex. She had not had her regular menstrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter die from the same cause. J. H. TRIPP & Co.

HERMANSVILLE, Oswego Co., May, 1848.

S. F. Bennett—Dear Sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla for my wife, which she has used for her complaint, Erysipelas and weakness, Falling of the Womb, etc. and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former feel confident that it will effect a perfect cure.

Yours, very respectfully, N. COBURN

Cure of an aggravated case of Erysipelas.

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

NORWAY, Herkimer Co., Feb. 1850.

S. F. Bennett & Co—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1846, and was for several months attended by some of our best physicians, who tried their skill perseveringly for 6 months without any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knee, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors who had cured a child of scrofula with your invaluable medicine, wished me to make a trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment, he commenced to improve before he had used the third bottle, and before he had used half a dozen bottles he could walk out. He used in all twelve bottles during the year '49, and by October last he was perfectly restored; every vestige of the disease except the scars were removed, and he remains in perfect health up to the present time. His recovery, under the blessings of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.

Respectfully, JAMES RUSSELL.

"We have used CRANE'S PATENT SOAP in our families for the past eight months, and pronounce it FULLY EQUAL to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

PATENT MEDICINES,

Dr. Trasks Magnetic Ointment,

CAN now be obtained in this city of S. JOHNSON, Jr., and H. Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or villages of the West. The great and increasing popularity of this remedy is mainly attributable to its controlling power over acute inflammation and nervous irritation. From the best of evidence in our possession, from Physicians, of the best standing, who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure in some cases where no other known remedy will do it. This it has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness, where the most eminent medical treatment had failed! For inflammatory Rheumatism Burns, Freezes, Ulcerated sores, Scald head, or for relief from a sudden stoppage of the pores of the skin by colds or fevers, a thorough trial will establish its claims to the confidence of the public. Our agents are supplied with circulars containing interesting details of its happy effects in many extreme cases.

☞ The attention of Physicians is respectfully called to a rigid scrutiny of the merits of this article.

A Word of Caution to the Public:

Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer, manufactured by White & Co. of Buffalo, which is a worthless imitation and the pamphlets a "BASE FORGERY" which will appear by comparing them with the Genuine. The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." Many unprincipled persons, to deceive the public, and for the sake of gain, have applied the name Pain Killer or something similar to their own compounds such as Pain Destroyer, Pain Killing Compound, a real Pain Killer, &c. &c. all of which have been got up on the reputation of Perry Davis' Pain Killer. GREAT DISCOVERY.
JOHNSON'S CHEMICAL
HAIR INVIGORATOR,
To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually
SCURF OR DANDRUFF
Prepared only by S. JOHNSON, 151 E. Water-st.
FOR THE TOILET,

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the harshest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the latest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 21 2m

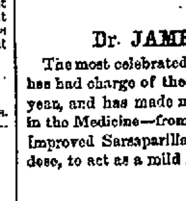
THE GREAT REMEDY
FOR
PILES, HABITUAL COSTIVENESS,



FEMALE COMPLAINTS,
Nervous Debility,
DYSPEPSIA,
OR
Loss of Appetite.

THE CONSTANT USE OF PHYSIC FOR THE ABOVE-NAMED COMPLAINTS, IS INJUDICIOUS AND DANGEROUS:

This any Physician will tell you—The more physic used, the more it requires—at last the tone and action of the bowels are destroyed, and the patient becomes afflicted with numerous kinds of nervous disorders.

The Genuine DR. TOWNSEND'S Sarsaparilla, has never failed in a single instance of curing the Piles and Costiveness, which to Females, is the great cause of those complaints which consume their strength, waste their Nervous energy, and enfeeble the whole Constitution. Mental Weakness is consequent upon physical prostration.

This Medicine acts as a simple, but powerful Tonic. It checks the tendency to exhaustion,

RENOVATES THE BLOOD,

allays NERVOUS EXCITEMENT, and reanimates the

Whole Body with New Life.

Dr. JAMES R. CHILTON,

The most celebrated Chemist in the United States, has had charge of the Manufactory for more than a year, and has made many important improvements in the Medicine—from one to two teaspoonfuls of the Improved Sarsaparilla, is all that is required for a dose, to act as a mild Alterative and Tonic.

Beware of Counterfeits.

Dr. Chilton's Certificate, printed on green paper, will be found on every bottle prepared since February, 1850, as well as Dr. S. P. Townsend's signature, on steel plate label on the outside wrapper.

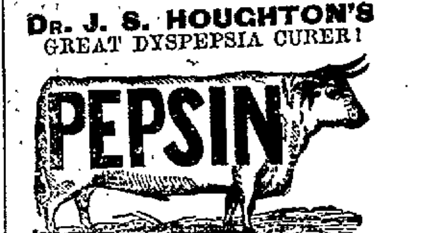
PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!
DR. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!



THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analagous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful.

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. 'In all cases,' he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes, all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe this.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copywright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
